B. Program Design

1. Community and Logic Model (24 points)

The application provides a detailed summary of the community problem, including:	Yes, It Does	No, It Does Not
How the inequities faced by underserved communities may contribute to the problem.		
How the CDC's Social Vulnerability Index explains the extent of the problem.		
How the applicant's intervention(s) will lead to the outcomes identified in the organization's Logic Model.		

COMMUNITY COMMENTS: Click or tap here to enter text.

The Logic Model describes:	Yes, It Does	No, It Does Not
The inputs or resources that are necessary to deliver the intervention, including but not limited to: ○ Locations or sites in which members will provide services ○ Setting and community condition where the intervention is delivered. ○ Number of AmeriCorps members who will deliver the intervention ○ Characteristics of AmeriCorps members, including specific knowledge, skills, and abilities required to implement the intervention.		
The core activities that define the intervention or program model that members will implement or deliver, including: ○ Length of each activity (e.g., the total number of weeks, sessions or months of the intervention) ○ The dosage of each activity (e.g., the number of hours per session or sessions per week) ○ The target population for the intervention (e.g., disconnected youth, third graders at a certain reading proficiency level)		
The measurable outputs that result from delivering the intervention (i.e. number of beneficiaries served, types and number of activities conducted, equity gaps closed). If applicable, identify which National Performance Measures will be used as output indicators.		
Outcomes that demonstrate changes in knowledge/skill, attitude, behavior, or condition that occur as a result of the intervention. If applicable, identify which National Performance Measures will be used as outcome indicators.		
Does not exceed 8 pages.		

*Note: Programs should include short, medium or long-term outcomes. Applicants are not required to measure all components of their Logic Model. The applicant's performance measures should be consistent with the program's Logic Model and should represent significant program activities.
Applicants with multiple interventions should include the above information for each intervention in the Logic Model.
